12th February 2007

State Secretary
Political Party of NSW

Dear Secretary,

The Anglers Action Group (Sydney Northside) Inc is a group of recreational fishers with membership throughout NSW, and our aim is to lobby for the rights and betterment of recreational fishing in NSW. We do not favor any political party, but with the coming State election we are canvassing political parties on various issues we consider of importance to recreational fishers in NSW.

In this regard we are asking questions on six issues, and your considered response (to either the above address or via email to aag@spunge.org) by 28th February 2007 is requested to enable full circulation.

Issue 1: What is your vision for recreational fishing in NSW?

Issue 2: If elected what one thing will your party do during its first term to improve recreational fishing for future generations?

Issue 3: - What do you believe is the best structure to represent the interests of the recreational fishers in NSW?

- Do you believe recreational fishing license fees should be used to fund the interests of recreational fishers?

Issue 4: - How would you reduce the apparent conflict between the interests of commercial and recreational fishers in NSW?

- How would you reduce the apparent conflict between the interests of Commonwealth commercial fishers (eg bait gathering) and recreational fishers in NSW?

Issue 5: How would you improve the use of recreational license fees so they would offer greater benefit to recreational fishers in NSW?

Issue 6: What is the single biggest environmental issue facing NSW that your party feels it could directly influence and what will you do about it?

Yours sincerely

Phillip Ingram
President
Anglers Action Group
